ABOUT APCO FRAMEWORK

The APCO Packaging Sustainability Framework (the Framework) aims to provide a consistent and transparent framework for assessing and tracking packaging sustainability across organisations. The Framework consists of thirteen independent criteria that belong to three separate categories. These categories are (i) Leadership, (ii) Packaging Outcomes and (iii) Operations. The diagram above shows the different criteria included within each of these three categories.

There are two types of criteria within the Framework:

- **Core criteria** are mandatory and must be answered by all Members when completing the Annual Reporting Tool.
- **Recommended criteria** are not mandatory, but Members are encouraged to complete as many recommended criteria as possible.

Each criteria is divided into five levels of performance ranging from 'getting started' to 'beyond best practice'. The diagram above illustrates the key differences between performance levels. APCO Members commenced annual reporting against the new Framework in 2018. Please see www.packagingcovenant.org.au for more information.

ABOUT APCO

APCO is a co-regulatory, not for profit organisation that partners with government and industry to reduce the harmful impact of packaging on the Australian environment. APCO promotes sustainable design and recycling initiatives, waste to landfill reduction activities and circular economy projects. APCO annual reporting is a key Membership activity, providing Member organisations with a transparent method to track their packaging sustainability performance. Annual reporting also supplies APCO with valuable data and information to identify industry trends and advancements.

FREE FORM QUESTIONS

Describe initiatives, processes or practices that you have implemented over the previous 24 months that have improved packaging sustainability.

With the egg carton being a generic form of packaging, used for a very long period throughout our industry, Pirovic Enterprises will benefit from any innovations that may occur in the industry as a whole. That is why we continue to regularly engage with relevant suppliers and other participants across the supply on such matters. Increasingly, we have been working with some of our commercial customers that have the appropriate equipment to receive our bulk liquid egg product in 1,000kg Pallecons. These Pallecons are 100% reusable and the only consumable is the plastic bladder similar to our 10Kg packs.
